Since orchid plants seem to grow "like Topsy" I am constantly worrying about room. Every time we move our seedlings into large pots, we bulge at the seams. Now I am also faced with having to bring the Cymbidiums in from the lathhouse, hence this very good offer on seedlings, to bloom on current leads. I have a quantity of all the crosses, mostly in 4" and 4½" pots. All are fine plants.

WHITES AND WHITES WITH COLORED LIPS

C trianae, Broomhills X C Bebe White: One of the finest pure-whites with gold in the throat. Main flowering time is Christmas and New Year. All in sheath. \$8.50

C Pamela Mounsey: (C H.L.Dillon X C Bobly Jewell) A very fine, heavy-textured pure-white for winter and spring. All in sheath, some in bud. 6.50

C Maureen Orcutt: (C Royal Harold alba X C Lady Alexander alba) A fine white with brilliant red lip for fall. All in sheath, many in bud. 6.50

C Reseda X C Cassadaqua: Good fall blooms of medium color and dark lip. All in sheath. 6.00

C Ottawa X C Dionysius: Good dark flowers for fall. All in sheath, many in bud. 6.00

C Santa Monica X C Tityus: Another excellent fall-blooming, medium-colored blooms with dark lip. All in sheath, some in bud. 6.00

C Barbara Dane X Blc Nannette: Some of these will be white and others pastel shades. All will be very nice. Winter and spring. All in sheath. 6.50

C Furnes: (C Dupreana X C mossiae) Winter and spring-blooming. All should be very nice, medium color with good lip. All in sheath, some in bud. Supply limited on this one. 6.00

These are all very fine, well-grown seedlings. My only reason for selling them at these prices is because I am so short of room. Express charges are such now that 2 and 3 plants may be shipped for the same cost as one. Consider this item when you send in your order.
